**30 Rounds Course Of Fire Math Chart**

Scoring:

- Use the “standard” 3-4-5 (3 = outside the rings; 4 = 7 ring; 5 = 8 or better) B-27 scoring to get a total score (150 maximum) Rifle has no “Zeros” (hits on the paper outside the silhouette)
- Multiply the total by two (2) then divide that number by three (3) to get a “percent” score  
Example: 1 7 ring and 29 8-10(X) rings = 149 times 2 = 298 divided by 3 = 99.33 (3s repeat, round or trim to 2 decimal places)
