

NC PPS/PPSB Qualification – SO/RO/RSO/Instructor/Trainer COF Cheat Sheet
RIFLE – NIGHT (or Low-Light) 30 Rounds

Target must be full-size LE/Police “B-27 Silhouette” (24”x45”).

ALL stages start with the safety ON, standing, “low ready”. ALL position transitions: finger off the trigger AND safety ON.

All sighting systems are allowable as long as they have NO MAGNIFICATION. Scopes must be capable of – and set to – Zero-Times (0X) or removed from the gun.

Flashlights (hand-held or weapon-mount) are allowed throughout. Flashlights MUST BE OFF between the “Drills”

For capable equipment: load a single 30 round magazine.

Scoring:

- All 30 rounds must be on the silhouette. Any hit outside of the silhouette, or a shot fired after the time limit, is a “miss” and causes a failure to qualify.
- Use the “standard” 3-4-5 (3 = outside the rings; 4 = 7 ring; 5 = 8 or better) B-27 scoring to get a total score (150 maximum)
- Multiply the total by two (2) then divide that number by three (3) to get a “percent” score
 Example: 1 7 ring and 29 8-10(X) rings = 149 times 2 = 298 divided by 3 = 99.33 (3s repeat, round to 2 decimal places)

All three “Courses Of Fire (COF)” must be passed as follows in one out of three attempts for an Officer to get certified in Rifle/Carbine:

- Standards Drill: Pass/Fail – All 32 rounds on the silhouette within the time limits is a “pass”
- Day and Night COF: 80% or better (3-4-5 method times 2 divide by 3) with all 30 rounds on the silhouette
